# SITES/SERVICES

- Capterra.com – Write software reviews and earn gift cards.
- Craigslist (Research Studies) – <https://YourCity.craigslist.org/search/vol>
- G2.com – Similar to Capterra.com.
- Gartner Peer Insights – <https://gartner.com/peer-insights/home> - Similar to Capterra and G2.
- MTurk.com - Amazon's Mechanical Turk – Perform simple tasks that computers aren't smart enough to do.
- NoodleCampus.net – Free stuff from Amazon in exchange for a review. No, they do not have an SSL certificate.
- Respondent.io – Research studies (Information Technology related) that pay quite well.
- UsabilityHub.com – Usability studies.
- UserInterviews.com – More usability studies.
- UserTesting.com – Even more usability studies. UserTesting tends to have the most jobs available.

- WAHM Forums - <https://www.wahm.com/forum/>

# TIPS & TRICKS

- For freebies, write letters to companies you like. Physical letters get better responses.
- Do not cash in Amazon gift cards until you're ready to use them.
- Do not pay to get started.
- Do not get discouraged!
- Do not treat this as income, it's "fun money".
- Use for saving for big ticket items.
- There will be highs and lows.
- Use your best judgement.
